Dear Mr. Master,

Many thanks indeed for your letter of yesterday and to express once again the joy it gave me to be with you last Thursday, and to see how the Browns Green Lodge has thrived and grown since I was its Master. I do congratulate you most sincerely once again for the way in which you carried out the ceremony of the Initiation and hope that you were not over-tired through your long journeys to and from Mollington and the strain of the Lodge business on top of it all. I am sure that you realised the pleasure that you gave to me. As I believe I told you then that I propose to leave here on April 15<sup>th</sup> and my address after that will be "10 Riverview Close, Worcester". If you are in Worcester, I hope you will give me the pleasure of calling. You know you will receive a very warm welcome.

Again with very many thanks,

Yours sincerely and fraternally

Rev. A. Hayson
