

Bro. in. You will notice that it is with open arms that we receive you into Fmy. and into this Lodge.

Also that each Bro. arms cross the breasts of the Bn. next to him on either side.

This means that the Bn. will protect each other from the attacks of the insidious whenever the need arises.

The fact that each Bro. hands reach beyond his immediate neighbour signifies that our masonry goes far beyond just helping a Bro. and that it reaches out into the world to do good and even to help those who are not Masons.

This chain is a double link and it is already extremely strong, but we always note that it will be made still more strong by the inclusion of a new link, in the form of a New Initiate.

You will now notice that our hands reach from the past, represented by the I.P.M.

Through the present represented by the W.M. and into the future, of which you are the emblems.

---

The slight swaying movement made by the Bn. signifies that although the chain is being stretched and tested, it still remains sound and unbroken symbolizing that Fmy. is able to meet and overcome difficulties under all circumstances.

We bid you welcome into the chain of our Fraternity.
